Overview
Fake Rest API is a free online REST service that you can use for sample data, tutorials and examples.
It's written in ASP.NET and run on Azure.

Source Code
You can view or download the source code from the officiale Github repository: https://github.com/kasuken/fakerestapi.

Test online

✅ Deploy Azure Web App

```
1   Starting: Deploy Azure Web App
2   ================================================================================
3   Task         : Azure Web App
4   Description  : Deploy an Azure Web App for Linux or Windows
5   Version      : 1.230.1
6   Author       : Microsoft Corporation
7   Help         : https://aka.ms/azurewebapptroubleshooting
8   ================================================================================
9   Got service connection details for Azure App Service:'udacity-project3'
10  Updating App Service Application settings. Data: {"WEBSITE_RUN_FROM_PACKAGE":"1"}
11  Deleting App Service Application settings. Data: ["WEBSITE_RUN_FROM_ZIP"]
12  App Service Application settings are already present.
13  Package deployment using ZIP Deploy initiated.
14  Successfully deployed web package to App Service.
15  NOTE: Run From Package makes wwwroot read-only, so you will receive an error when writing files to this directory.
16  App Service Application URL: https://udacity-project3.azurewebsites.net
17  Finishing: Deploy Azure Web App
```
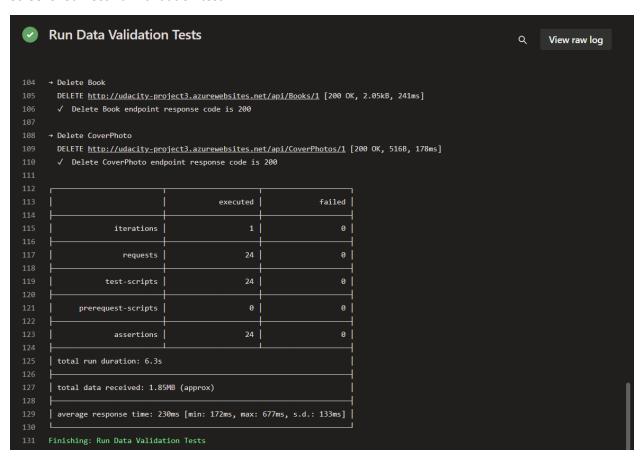

Screenshot: apply terraform

```
